

AT-8 OB ASSEMBLY TABLE

BUILD TALLER FRAMES!

**Perfect Frames
Everytime!**

The **AT-8 OB Assembly Table** is equipped with a pressure regulator, pressure gauge and hose for a pneumatic air screw driver*.

The convenient screw tray is inches away from the work at all times. The AT-8's highly ergonomic design places the **bottom rail at 32" above floor level** to reduce bending, reaching and operator fatigue.

The super rigid, high precision beam is both light and strong, and moves effortlessly on ball bearings.

*Driver sold separately
