Every JLT Door Clamp
comes pre-squared from
our factory, ensuring
precision.

MEASUREMENTS

Width: 148"

Height: 77"

Depth: 50"

Built To Last

100% welded heavy duty frame designed
with large cylinders to handle all of your
large door needs.

Laser Cut Steel Is Stronger Than Wood

Designed with welded plate steel and
tubing, the clamp jaws and squaring bars
are up to the task. Clamp and square
many thousands of entry doors before
needing to replace a part.

Pressure Where You Need It

Up to 2500# of clamping force where you
need it most. Vertical clamps can easily be
positioned in the right spot.
