

6400 6800

6400/6800

These two vertical saws have heavy-duty worm-drive saw motors for production shop service. These motors have higher horsepower and are smoother running for demanding jobs. Double guide bearings improve cutting accuracy to $1/64"$. The 6400 cuts panels up to 64" wide, while the 6800 can handle extra-wide 76" sheets. The 6400/6800 saws are well suited to medium-production shops, busy lumberyards, and jobs where heavier materials are frequently cut.

Standard Equipment	Optional Equipment	Specifications
<ul style="list-style-type: none"> • 3 hp Skil Worm-drive Heavy-duty Saw Motor • 10' Welded Steel Frame • Chrome-plated $1\frac{3}{4}"$ Guide Tubes • 8 Nylatron Roller Bearing Systems • Adjustable Rulers • Rotating Saw Head • Thin Material Pressure Guard • Solid Aluminum Rollers • Enclosed Saw Counterweight System • 1-Year Parts Warranty 	<ul style="list-style-type: none"> • Wheels • Fixed Stand • Extensions • Quick Stop Gauge • Stop Bar Gauge • Dust Hood & Hose Kit • Dust Vacuum System (1 hp or $2\frac{1}{4}$ hp) • Hold Down Bar • Mid-way Fence • Specialty Saw Blades 	<ul style="list-style-type: none"> • Max.
